

abi AMV2: AIR MOUSE PRESENTER

REMOTE AIR MOUSE / PRESENTATION AID

The **abi AMV2** is the latest in air mouse technology using gyro gesture pointing for the mouse operation, and also incorporating multimedia controls and more than 30 custom programmable buttons. A USB receiver receives the RF (2.4 GHz) wireless signal.

The gyro gesture operation turns hand movement into mouse control using the rotation of the wrist or elbow. Left & right mouse functions are operated by buttons. Operational range is up to 10m (30feet).

The **AMV2** also incorporates programmable buttons that can be used to control various presentation and multimedia operation functions on your PC, such as DVD & Media Player. You can easily set up shortcut keys using the AMV2 programming software supplied with the air mouse.

AMV2 FEATURES

- RF Wireless air mouse
- Gyro motion detection technology for mouse cursor control
- 10m+ wireless communication range for button control
- 10m+ air mouse cursor communication range
- 2.4GHz/1~4dBm frequency/transmission power
- USB Receiver for wireless PC receiver; USB HID compliant
- 24 hour battery time in air mouse before recharging
- Uses 2 x AA batteries
- Power Consumption: Approx 100hours continuous use
- Air Mouse Size/Weight: 170x40x30mm; 200g; USB Receiver 50x15x15mm
