

abi Cannes

TAB-TENSIONED MOTORISED SCREEN

TAB TENSIONED Cannes home cinema motorised screens brings you the flattest screen surface possible in motorised screens - to bring out the very best in the images your projector can produce.

ABI Cannes is available as Front or Rear Projection types!

For total home cinema control, Cannes has built-in remote control. Not only that, but it also has a second remote control system. One InfraRed system and one RF system, so you shouldn't ever get stuck if a remote gets lost. Installation is a breeze with the Cannes.

The sliding latch mounts can be simply moved to meet wall studs for easy wall mounting.

And Cannes' Plug n Play power cable means no tradesmen or electricians are required for any complicated wiring.
