

# abi Hideaway

## CEILING-RECESSED MOTORISED SCREEN

**H**ideAway plate systems can be fitted to ABI's motor screen square case models, to become recessed ceiling screens. You no longer have to carry two complete ranges of screens - just the normal motor model with the optional *HideAway* recessed plate.

The *HideAway* plate systems are quick and easy to attach to the screen, fitting around the screen like a glove.

To install the screen, simply cut the shape in the ceiling (template included with each plate), install the ceiling rod supports, and position the screen into the opening and bolt the screen into position. Ceiling plate is finished in white powdercoat finish to match a standard ceiling.

The *HideAway* plate system incorporates a remote control to operate the screen, and a motorised closure plate, so that the screen opening is automatically closed when the screen is retracted.

The innovative ABI *HideAway* system greatly reduces the cost of installing a ceiling-recessed projection screen.

### SPECIFICATIONS

HA3000: Suits screens that are 3m in horizontal width, incl:

Product Code	Format	Diagonal	Overall Size	Viewing Size	Top Border	Case Size
EMMW3030R	Square (1:1)	n/a	3000 x 3000	2900 x 2900	300	3220 x 98 x 98
EMMW375DR	Video (4:3)	3750	3000 x 2275	2900 x 2175	300	3220 x 98 x 98
EMMW325HDTV	RHDTV (16:9)	3250	2932 x 1692	2832 x 1592	450	3152 x 98 x 98
