

IMAGE Projector Ceiling Mount with Security Cover

Medium length (50cm) Mount (PJ50SEC)

Long Telescopic Mount (PJ80SEC)

The ABI Universal Projector Ceiling Mounts are designed to suit almost any model video projector, and can be adapted to most projection requirements. The security cover is available in white or black, and comprises a top & bottom security plate with a lockable (2 padlocks incl) central column. Once padlocked, no projector mount screws are visible or accessible.

- Super strong all steel construction - up to 30kg capacity
- Mix and match bracket module and screws to adapt to most projector attachment points.
- White Powdercoat finish
- Hollow post design means uncluttered ceiling by hiding cables inside mount.
- Compact, lightweight design.
- Multi-directional locking pivot points.
- Fraction of the cost of other quality projector mounts.
- Easy-installation system
- Up to 20 degrees tilt (adjustable)
- Security post holds top & bottom plates in position, preventing access to mounting screws
