

# abi Elite Projector Ceiling Mount

**Short Mount PJE108S (Silver) or PJE108W (White)**

**Telescopic Mount PJE106S (Silver) or PJE106W (White)**

**Long Telescopic Mount PJE107S (Silver) or PJE107W (White)**

The **abi** Universal Elite Projector Ceiling Mounts are designed to suit almost any model video projector, and can be adapted to most projection requirements, with a choice of Short, Telescopic, or the Long Telescopic type. Stylish, strong but affordable premium grade projector mount! The unique triangular headed bolt provides extra security as the screws can only be removed with the special tool provided with the mount.

- Super strong aluminium post construction - up to 20kg capacity
- Attractive design for home theatre & installation projects
- Unique triangular head bolts for extra security to prevent theft
- Mix and match bracket module (3 lengths) and screws to adapt to most projector attachment points
- Silver or White Powdercoat finish
- Short post mount for regular and low ceilings
- Telescopic or Long Telescopic for higher ceilings
- Hollow post design means uncluttered ceiling by hiding cables inside mount post
- Compact, lightweight design
- Multi-directional locking ball joint allows swivelling of projector
- Post can be angled relative to slope of ceiling, up to 90°
- Easy installation system
- Up to 20 degrees projector tilt (adjustable)
