

# abi Elite Projector Track Mount

**Short Wall Mount: PJTE109 (Silver)**

**Standard Wall Mount: PJTE110 (Silver)**

**Ceiling Track Mount: PJTE111 (Silver)**

The **abi** Universal Elite Projector Track Mounts are designed to suit fixed lens projector models that need to move towards/away from the screen to adjust the image size. Wall models suit ultra short throw projectors, particularly with Interactive Whiteboards. The Ceiling Mount model can be used with any fixed lens projector to give it a zoom capability. Modern attractive design with concealed cable management and end cover plates.

- Super strong aluminium extrusion - up to 20kg capacity
- Attractive design for home theatre & installation projects
- Mix and match bracket module (3 lengths) and screws to adapt to most projector attachment points
- Silver Powdercoat finish
- Cables are concealed inside track extrusion & come out end cap to attach to projector
- Compact, lightweight design
- Multi-directional locking ball joint allows swivelling of projector
- Easy installation system
- Up to 20 degrees projector tilt (adjustable)
- Ceiling track model can be mounted flush to ceiling or extended on covered threaded rods.
